## E-POWER ROLL CAGE

LAUNCHING SOON

PRODUCT MODEL:- JRDE-PRCV1

Introducing the E-Power Roll Cage: A Cutting-Edge Solution for Electric-Powered Material Handling. Experience the future of material handling with the E-Power Roll Cage, setting a new standard in efficiency and convenience for warehouses, distribution centers, and retail environments.

## Technical Specification

- External Dimension are:-L-2000mm X W-1000mm X H-1500mm
- Load carrying capacity of this product is 300 KG.
- Towing capacity of this product is about 2 Ton.
- Electric Power System:
  - Motor Type: Brushless DC (BLDC) motor
  - Voltage: 72V
  - Battery: Lithium-ion, rechargeable
- Nestable Design: Allows for nesting when not in use, reducing storage space requirements.

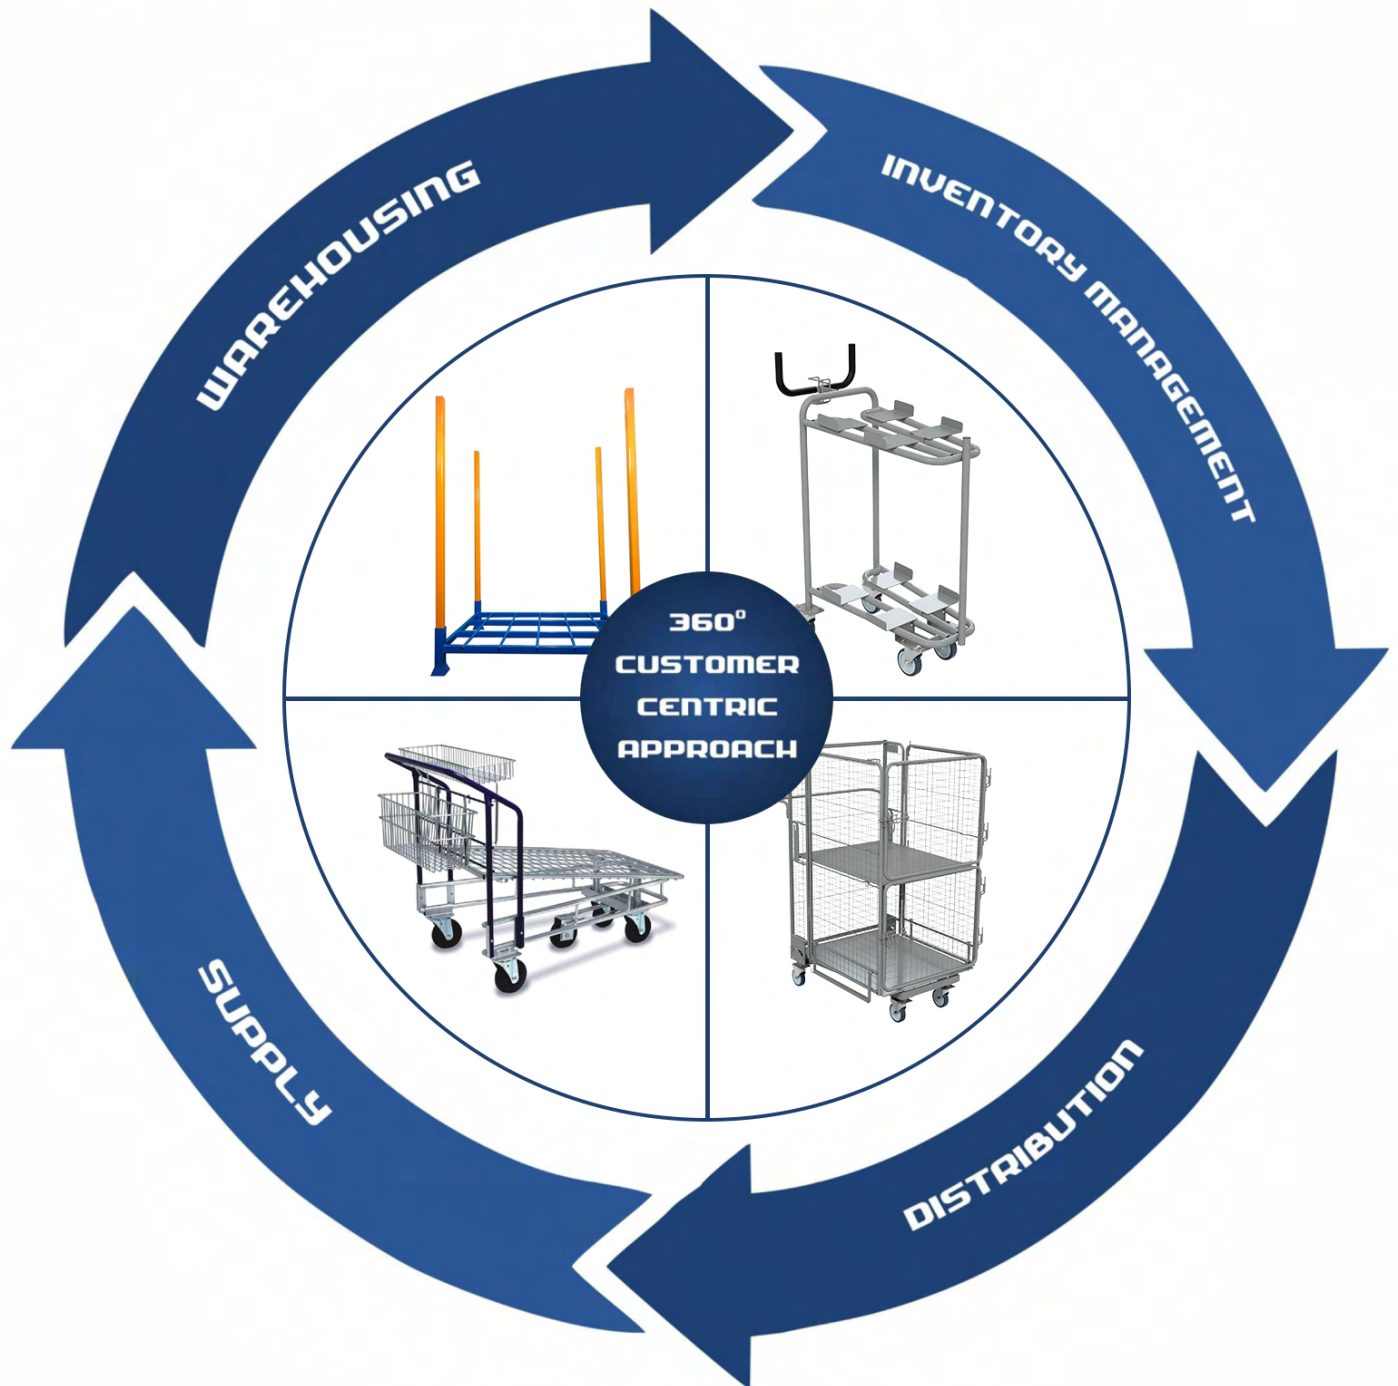

# PRODUCT MODEL:- JRDE-PRCV1

## Product Features

- **Robust Protection, Effortless Transportation:** This innovative roll cage container offers unparalleled protection for goods while ensuring easy handling and transportation. Crafted with durability in mind, it safeguards your valuable inventory during every step of the logistics process.
- **Efficient and Space-Saving:** Beyond its sturdy construction, the E-Power Roll Cage is engineered for efficiency. Its collapsible design enables compact storage when not in use, optimizing space utilization in storage facilities and transportation vehicles.
- **Multi-Cage Towing Capability:** Innovatively designed, the E-Power Roll Cage has the capacity to tow multiple roll cages simultaneously, further enhancing its versatility and efficiency in material handling operations. Streamline your workflow by effortlessly transporting multiple loads with ease.
- **A Glimpse into the Future:** With its advanced technology, durability, multi-cage towing capability, and user-friendly design, the E-Power Roll Cage represents the next generation of material handling solutions. Experience optimized workflow and enhanced operational efficiency across various industries, setting the stage for a more productive future.
